

# DEHANSA VIDANAPATHIRANA

Software Engineering Undergraduate

## PROFILE SUMMARY

My passion is frontend development, where I focus on building responsive, visually appealing, and user friendly web interfaces. I enjoy turning creative ideas into smooth, engaging digital experiences while continuously exploring new tools and design concepts.

## TECHNICAL SKILLS

- **Languages** : JavaScript ,TypeScript, HTML , CSS
- **Frameworks / Libraries** : Bootstrap, Tailwind , Angular
- **Tools** : Figma, Adobe XD, Git, GitHub, npm, Jira

## EDUCATION

- **University of Colombo School of Computing**  
Bachelor of Information Technology (Undergraduate) — Present
- **SLIIT Faculty of Computing**  
Certificate in AI/ML Engineering — Present
- **Institute of Computer Engineering Technology (ICET)**  
Diploma in Certified Developer — Aug 2024 – Present
- **Visakha Vidyalaya, Colombo**  
High School — 2009 – 2024

## EXPERIENCE

- **UI/UX Intern Ok Webs IT Solutions** — I completed a UI/UX internship at Ok Webs IT Solutions from November 2024 to May 2025, where I designed responsive web and mobile interfaces using Figma and Adobe XD. I focused on creating clean, user-friendly designs, built interactive prototypes, and contributed to user research and testing. Working closely with developers, I helped ensure smooth handoffs and consistent design across projects, which strengthened my skills in practical UI/UX design.

## PROJECTS

- **UI / UX Project** - I designed a modern, user-friendly food delivery app using Figma and Adobe XD, with a focus on intuitive navigation and a clean interface. Through user research, wireframing, and interactive prototyping, I developed a consistent design system. Collaborating closely with developers ensured a smooth handoff, and usability testing led to a 40% increase in task completion rates.

## CONTACT

- **HTML ,CSS ,Java Script**

1. **Weather App** - I designed a simple and clean weather app that allows users to input a city and view real-time weather information. Focusing on UI/UX and responsive design, I built the app using HTML, CSS, and JavaScript to ensure a smooth experience across all devices.
2. **Burger Shop Website** - Built a modern burger shop site with a dynamic menu, order form, and cart section. Enhanced user interaction with JavaScript and styled it to reflect a fun, food-oriented brand.
3. **Travel Website** - Designed a vibrant travel website featuring destinations, image galleries, and booking buttons. Ensured smooth navigation, mobile responsiveness, and visual engagement using CSS transitions.
4. **To-Do List Web App**- Developed an interactive to-do list with features like add, delete, and mark as complete. Implemented local storage to retain tasks and designed a minimalist interface for ease of use.
5. **Fashion Style Website** - Created a stylish and responsive fashion website showcasing collections, product categories, and smooth scrolling effects. Focused on clean UI design and visual appeal using modern CSS techniques.

- **Angular**

1. **Car Sale Website (In Progress)** - Developing a responsive car sale web app using Angular 19 with features like vehicle listings, brand/category filters, and detailed car views. Focused on component-based architecture, routing, and a user-friendly interface.
2. **Hospital Management System Website (In Progress)** - Building a hospital management system with Angular 19, focusing on patient registration, appointments, and doctor info. The main structure is complete, with modular design, form handling, role-based access, and scalable UI components in place.
3. **Online Exam Platform (In Progress)** - Part of a group project developing a full-stack online exam platform using Angular for the frontend. The project follows a Microservices architecture and is currently in progress. My focus is on building a responsive, user-friendly interface, with planned features like automated grading and support for over 500 users to reduce manual evaluation by up to 60%.
